### INDEPENDENT DEVELOPMENT PROJECTS

- **Soda Drinker Pro: NES Edition:** Created a video game for the Nintendo Entertainment System. Remade every level and music track from the PC/Xbox game Soda Drinker Pro in 6502 assembly. Endorsed by the original creators and published by Limited Run Games.
- **Wii Shop Channel Remake:** Created a nearly identical remake of the Nintendo Wii Shop Channel for the web. Application is built to simulate the Wii Shop Channel with a physics-based cursor and on-screen keyboard.
- **Pokédex:** Created a fan-made mobile app showing information about Pokémon from the videogame series.
- **Web Board Games:** Created multiple remakes of board games, playable in a browser.
- **Personal Site:** Created a website showcasing various projects. Application features interactive elements, responsive design, and playable web games.
- **Dungeon App:** Created a text-based dungeon game in C#. Application has players going through rooms of a dungeon, fighting monsters along the way.
- **S.A.T. Scheduling Administration Tool:** Created a secure application for managing product data. Application is built to simulate an online class scheduling system. Administrators will have the ability to manage students, courses, scheduled classes, and enrollments.
